

SES-MKP-PPL Datasheet

DESCRIPTION:

The Sescom SES-MKP-PPL is a phantom-powered flashlight with a red LED. It is designed to offer a soft, non-intrusive light for illuminating dark or low-light settings such as stages or orchestral pits, while helping to avoid disturbing others. Additionally, this flashlight can be used to test for phantom power.

** Phantom power is required for use. **

FEATURES:

- Red LED for subtle lighting and minimal disturbance to others
- Standardized D-Size Neutrik 3-Pin XLR Male Chassis connector
- Black powder coated aluminum housing
- Can be used as Phantom power tester

SPECIFICATIONS:

- Dimensions: 3" x 1.23" x 1.02"
- Red LED light
- Neutrik 3-Pin XLR Male Chassis connector
- Lifetime: > 1000 mating cycles
