

New High-Power IP Horn

Valcom's VIP-142-GY High Power IP Paging Horn is a weather-resistant, high-efficiency horn that supports multiple audio and control protocols, with output equivalent to 15-Watts (using PoE+).

The VIP-142-GY supports full duplex talkback communication. The high-impact Polycarbonate construction resists the deteriorating effects of outdoor elements.

Indoor/outdoor

Omni-directional mounting base

Built-in microphone

SIP & Multicast enabled

PoE & PoE+ compatible

Remote management and monitoring
