Extreme Range Scalable Cordless Phone System

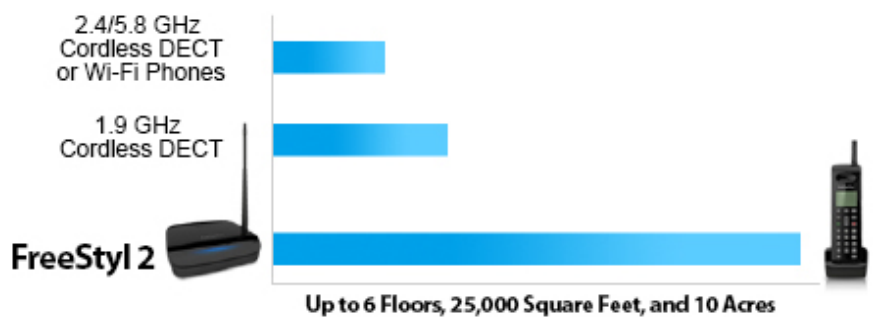

Base Station and Phone with Charging Station

Significantly greater signal range than ordinary DECT or Wi-Fi phones.

The EnGenius FreeStyl 2 is a scalable 900 MHz Cordless Phone System with extreme wireless signal range that's ideal for businesses with employees who roam beyond the confines of their offices or cubicles; or for expansive properties (farms, ranches, resorts, luxury estates) so owners or staff can stay connected over extended distances.

Going Where DECT and Wi-Fi Phones Cannot Go

The FreeStyl in many cases is a complimentary addition to an existing digital desk phone systems, DECT phone systems and Wi-Fi phone systems. It connects behind any analog line or port and provides companies or homeowners a solution that provides connectivity far beyond DECT or Wi-Fi phones particular on properties where outdoor Wi-Fi is unavailable or not an option.

A Scalable Solution

Individual FreeStyl 2 handsets are available for purchase from EnGenius authorized resellers so users can continue to add to their system. Each FreeStyl 2 base station supports up to 9 individual FreeStyl 2 handsets. Each handset includes its own charging station.
